Voya Diversified Floating Rate Senior Loan Fund

(Formerly “ING Diversified Floating Rate Senior Loan Fund”)

Annual Report

May 31, 2015

VOYA DIVERSIFIED FLOATING RATE SENIOR LOAN FUND (FORMERLY "ING DIVERSIFIED FLOATING RATE SENIOR LOAN FUND") MESSAGE TO UNITHOLDERS

August 28, 2015

Dear Investor,

We are pleased to provide you with the annual report for the Voya Diversified Floating Rate Senior Loan Fund (formerly "ING Diversified Floating Rate Senior Loan Fund") (the "Fund") for the year ended May 31, 2015. We have recently changed the name of the Fund to reflect the fact that Voya is now an independent company rather than a subsidiary of ING U.S., Inc.

The Fund was established to provide investors with exposure to a diversified portfolio (the "Portfolio") consisting primarily of Senior Loans and other senior debt obligations of non-investment grade North American borrowers actively managed by Voya Investment Management Co. LLC (formerly "ING Investment Management Co. LLC") (the "Sub-Advisor").

The Fund's investment objectives are to (i) provide tax-advantaged monthly cash distributions consisting primarily of returns of capital; (ii) preserve capital; and (iii) generate increased returns in the event that short-term interest rates rise above applicable London Interbank Offered Rate (LIBOR) floors. The Fund will not have a fixed distribution policy, but intends to make monthly distributions based on the actual and expected returns on the Portfolio.

We have been pleased with the performance of the Fund during the year ended May 31, 2015. Class A shares of Voya Diversified Floating Rate Senior Loan Fund had a market price return of 6.43% and a NAV return of 4.38%. Class A shares of ISL Loan Trust II, the bottom-level trust, generated a total return of 5.77%, as compared to 2.84% for the S&P/LSTA Leveraged Loan Index ("Index") for the same period.

In Voya's view, while credit fundamentals remained relatively healthy, the Fund's fiscal year was an interesting story, with returns strongly a function of market technicals (i.e., supply and demand). With the lift in loan prices, repricing volume accelerated to end May at a 16-month high of $32 billion. Given this heightened risk of imminent repricing, investors have recently begun to pull back on prices they are willing to pay for par-plus loans, especially those with expired soft call protection (i.e., a small fee paid to investors in the event of a voluntary repricing only). Additionally, investors were recently encouraged to hear news that the primary market may be picking up again, as the forward calendar pushed up near $60 billion at the end of May. Voya also did a good job of being underweight the energy sector.

Return expectations over the visible horizon will likely remain a function of market technicals. Voya expects demand for floating rate loans to remain solid and reasonably good total return performance from loans through the balance of the year, transitioning into what most believe will be, over time, a period of rising short and long term interest rates.

I would like to thank you for investing in the Fund. Please check our website for quarterly investment updates and other timely information. Yours truly,

W. Neil Murdoch
Chief Executive Officer
Aston Hill Capital Markets

MANAGEMENT REPORT OF FUND PERFORMANCE

This annual management report of fund performance for **Voya Diversified Floating Rate Senior Loan Fund** (formerly "ING Diversified Floating Rate Senior Loan Fund") (the "Fund") contains financial highlights but does not contain the complete annual financial statements of the Fund. **The annual financial statements and accompanying notes are attached to this report.**

You can obtain a copy of the annual financial statements at no cost by writing to Aston Hill Capital Markets Inc. (the "Manager") to the following address: Aston Hill Capital Markets Inc., 77 King Street West, Suite 2110, PO Box 92, Toronto, Ontario, M5K 1G8 or calling 1-800-513-3868 or visiting the Manager's website at www.astonhill.ca or by visiting www.sedar.com. Security holders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGIES

The Fund is a non-redeemable investment fund established under the laws of the Province of Ontario and governed by the Fund's Trust Agreement (the "Trust Agreement") dated February 26, 2013 between Aston Hill Capital Markets Inc. (the "Manager") and RBC Investor Services Trust (the "Trustee"). The Fund's principal office is located at 77 King Street West, Suite 2110, PO Box 92, Toronto, Ontario, M5K 1G8. The fiscal year-end of the Fund is May 31.

The beneficial interest in the net assets and net income of the Fund is divided into Units of two classes, Class A Units (the "Class A Units") and Class U Units (the "Class U Units"). The Fund is authorized to issue an unlimited number of Units of each class. The Class A Units are listed on the Toronto Stock Exchange (the "TSX") under the symbol IFL.UN. The Class U Units are not listed on a stock exchange but may be converted into Class A Units on a weekly basis. The Class U Units are designed for investors wishing to make their investment in U.S. Dollars.

The Fund's investment objectives are to:

(i) provide tax-advantaged distributions consisting primarily of returns of capital;

(ii) preserve capital; and

(iii) generate increased returns in the event that short-term interest rates rise, in each case, through exposure to a diversified portfolio (the "Portfolio") consisting primarily of senior, secured floating rate corporate loans ("Senior Loans") and other senior debt obligations of non-investment grade North American borrowers held by ISL Loan Trust II (the "ISL Loan Trust II" or the "Trust"), and actively managed by Voya Investment Management Co. LLC (the "Sub-Advisor").

In order to achieve the Fund's investment objectives, the Fund obtains exposure, in a tax-efficient manner, to the performance of the Portfolio held by ISL Loan Trust II. The Sub-Advisor invests in a broadly diversified portfolio composed primarily of Senior Loans. The Sub-Advisor generally seeks to make investments in Senior Loans and other debt obligations of borrowers that have: (i) significant levels of asset and/or cash flow coverage; (ii) a protective capital structure, with adequate subordinated debt cushion; (iii) strong senior management; and (iv) attractive market positioning. The Portfolio consists primarily of Senior Loans that are expected to generate increased Portfolio cash flow in the event that short-term interest rates rise above applicable LIBOR floors. Up to 20% of Total Assets of the Fund may be exposed to senior, unsecured floating rate loans and notes, second lien floating rate loans and notes, corporate debt securities, short-term debt obligations, money market obligations, and equity securities that are incidental to investments in loans.

The Fund does not invest directly in ISL Loan Trust II; the Fund used the net proceeds of its initial public offering to pre-pay its purchase obligations under a forward purchase and sale agreement (the "Forward Agreement") with Bank of Nova Scotia (the "Counterparty" or "BNS"). Under the Forward Agreement, the Fund will receive, on or before February 28, 2018, a specified portfolio consisting of securities of Canadian public issuers that are "Canadian securities" for the purposes of the Tax Act in an amount equal to the Net Asset Value of the Trust. Partial settlements under the Forward Agreement are intended to ensure that Unitholders have economic exposure to the distributions effected by ISL Loan Trust II. A fee of 0.45% per annum, calculated with reference to the Net Asset Value of ISL Loan Trust II, is payable to BNS under the Forward Agreement. Risk

Changes in the risk exposure of the Fund occurred in the following area:

Use of leverage

ISL Loan Trust II may employ leverage of up to 40% of Total Assets (the "Leverage Factor") for the purposes of acquiring assets for the Portfolio and such other short-term funding purposes as may be determined by the Sub-Advisor, in consultation with the Manager, from time to time and in accordance with the Investment Strategy. Accordingly, the maximum amount of leverage that the Trust could employ is 1.67:1. If there is a decline in the value of the assets in the Portfolio, the leverage will cause a decrease in the Net Asset Value of the Fund in excess of that which would otherwise be experienced if no leverage was utilized.

ISL Loan Trust II entered into a Credit Agreement dated April 30, 2014 between the Fund Manager (on behalf of the Fund) and the Bank of Nova Scotia (the "Counterparty"). Borrowings by the Fund are made in U.S. dollars. The Fund applied leverage in the range from 19.0% to 35.2% or from U.S. $35,600,000 to U.S. $66,400,000 during the year ended May 31, 2015. The amount of U.S. $34,700,000 or the Canadian equivalent of $43,314,275 was outstanding as of May 31, 2015. The leverage factor was approximately 23.6% as of May 31, 2015 (nil to 38.9% or from nil to U.S. $94,400,000 during the year ended May 31, 2014. The amount of U.S. $67,400,000 or the Canadian equivalent of $73,286,242 was outstanding as of

May 31, 2014. The leverage factor was approximately 31.6 % as of May 31, 2014; ISL Loan Trust II did not employ leverage during the period from March 22, 2013 (commencement of operations) to May 31, 2013 as the Fund was in the process of becoming fully invested). The related interest expense during the year ended May 31, 2014 was $787,401 ($988,931 during the same period ended May 31, 2014; $nil during the same period ended May 31, 2013).

For full disclosure of the risks associated with an investment in the Fund's Units, please refer to the Prospectus dated February 26, 2013 and to the Fund's most recent Annual Information Form. Both are available at www.astonhill.ca and www.sedar.com.

RECENT DEVELOPMENTS

International Financial Reporting Standards (IFRS)

The Fund adopted IFRS as published by the International Accounting Standards Board (IASB) as of June 1, 2014 as required by Canadian securities legislation and the Canadian Accounting Standards Board. Previously, the Fund prepared its financial statements in accordance with Canadian generally accepted accounting principles as defined in Part V of the CPA Handbook (Canadian GAAP). The Fund has consistently applied the accounting policies used in the preparation of its opening IFRS statement of financial position at June 1, 2013 and throughout all years presented in its annual financial statements, as if these policies had always been in effect. Note 15 to the annual financial statements dated May 31, 2015 discloses the impact of the transition to IFRS on the Fund's reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Fund's financial statements for the year ended May 31, 2014 prepared under Canadian GAAP.

Federal Budget Announcement

On March 21, 2013, the Minister of Finance announced proposals in a federal budget that would treat the gain realized by a mutual fund under forward agreements such as the one entered into by the Fund as ordinary income rather than a capital gain, if the forward agreement was entered into or extended on or after March 21, 2013. On July 11, 2013, the Department of Finance announced proposed technical changes to the transitional rules related to character conversion transactions announced in the federal budget. One of the announced changes includes the extension of the transition period for short-term agreements. The extended grandfathered period allows investment funds, whose forward agreements were entered into prior to March 21, 2013 and the terms of which provide for settlement or are a part of series of agreements that provide for settlement prior to 2015, to extend their forward agreements until end of 2014. For longer-dated forward agreements, the grandfathering transitional period will not extend beyond March 21, 2018. Grandfathering is subject to certain growth rules with which the Fund intends to comply. The federal budget, part of Bill C-4, was enacted into law on December 12, 2013.

Pursuant to the material changes as mentioned in "Investment Objective and Strategies" above, the Forward Agreement will remain until its scheduled termination on June 30, 2016, as a result of the above mentioned changes to the Income Tax Act, the Forward Agreement will be terminated and the Fund will hold the Portfolio held by BNS directly.

RESULTS OF OPERATIONS

Caution regarding forward-looking statements

The analysis in the document includes forward-looking statements. The use of any of the words anticipate, may, will, expect, estimate, should, believe and similar expressions are intended to identify forward-looking statements. Such statements reflect the opinion of the Sub-Advisor regarding factors that might be reasonably expected to affect the performance and the distributions on Units of the Fund and are based on information available at the time of writing. The Sub-Advisor believes that the expectations reflected in these forward-looking statements and in the analysis are reasonable but no assurance can be given that these expectations or the analysis will prove to be correct and accordingly, they should not be unduly relied on. These statements speak only as of the date of this report. Actual events and outcomes may differ materially from those described in these forward-looking statements or analysis.

Sub-Advisor's Commentary (as at June 2015)

Performance Summary

During the one year ended May 31, 2015, Class A shares of Voya Diversified Floating Rate Senior Loan Fund had a market price return of 6.43% and a NAV return of 4.38%. Class A shares of ISL Loan Trust II, the bottom-level trust, generated a total return of 5.77%, as compared to 2.84% for the S&P/LSTA Leveraged Loan Index ("Index") for the same period.

Market Update

While credit fundamentals remained relatively healthy, the Fund's fiscal year was an interesting story, with returns strongly a function of market technicals (i.e., supply and demand).

Particularly at the end of 2014, overall investor sentiment and, in turn, average loan prices were buffeted by a series of external headwinds. These included, but were certainly not contained to: widely divergent views as to interest rate expectations and the health of the global economy; intensifying geopolitical risk globally; escalating regulatory pressure on U.S. financial markets; and rapidly declining energy and commodity prices. By the end of 2014, about half-way through the fiscal year, only 2.7% of loans were trading at par or higher.

Prices began to recover at the beginning of 2015, as improving sentiment across capital markets, supported by the stabilization and partial rebound of oil prices, provided a lift to the loan market. Average loan bids improved further when market technicals shifted heavily toward demand, as the new-issue pipeline decreased steadily through February and March, and solid demand, particularly from Collateralized Loan Obligations (“CLOs”) and institutional investors, persisted. By the end of the fund’s fiscal year, the percent of loans trading at par or higher was 51%.

With this lift in loan prices, repricing volume accelerated to end May at a 16-month high of $32 billion. Given this heightened risk of imminent repricing, investors have recently begun to pull back on prices they are willing to pay for par-plus loans, especially those with expired soft call protection (i.e., a small fee paied to investors in the event of a voluntary repricing only). Additionally, investors were recently encouraged to hear news that the primary market may be picking up again, as the forward calendar pushed up near $60 billion at the end of May.

From a fundamentals perspective, trailing default activity remained low. The trailing twelve-month Index default rate, as measured by principal amount, ended the fiscal year at 1.26%.

Portfolio Specifics

The portfolio outperformed the Index during the period based primarily on favorable credit and industry selection and an emphasis on loans that we believe provide excess coupon for the risk. Specifically, underweights to the volatile Utilities and Oil & Gas sectors and avoidance of the worst performers in those sectors, particularly Energy Future Holdings (EFH, formerly, TXU) contributed positively to the portfolio’s relative performance. Additionally, selection and allocation in Business Equipment & Services and Chemicals & Plastics were accretive to relative returns. On a relative basis, the portfolio’s investments in a few select underperformers (Everyware, Gardner Denver and Iglo Foods) were detractors over the period.

The use of leverage for investment purposes also provided, over the full performance period, a positive impact on performance. Fundamental credit performance continued to be positive, as the portfolio experienced one default during the performance period, as compared to seven within the Index over the same timeframe.

Outlook

Although volatility across capital markets is picking up as we inch toward the first move upward in short-term interest rates, we view the loan market’s near-term outlook as reasonably constructive. The risk of an unexpected spike in default activity appears to be low, a view based on 1) a stable to improving U.S. economic forecast and 2) the vast majority of issuers having solid cash-flow coverage ratios and no immediate maturities. Credit watch-lists tend to be short, as illustrated by the Index’s very low (0.24%) shadow default rate (i.e., issuers having missed a bond payment, entered a forbearance agreement or hired bankruptcy counsel) and but a handful of issues trading at levels that signal financial distress.

As a result, return expectations over the visible horizon will likely remain a function of market technicals. Absent an unexpected and meaningful downward shift in risk-taking across the credit and capital markets, we’d expect demand for floating rate loans to remain solid, hopefully to be met by consistent flow of new loan transactions to sufficiently absorb that demand. In that scenario, we’d envisage reasonably good total return performance from loans through the balance of the year, transitioning into what most believe will be, over time, a period of rising short and long term interest rates. A rising rate environment is a backdrop against which floating rate loans have historically performed quite well, on both an absolute and relative basis.

CAPITAL TRANSACTIONS

On March 22, 2013, the Fund completed an initial public offering pursuant to the Prospectus dated February 26, 2013. $160,000,000 was raised through the issue of 16,000,000 Class A Units and U.S. $17,714,670 was raised through the issue of 1,771,467 Class U Units. The Class A Units were issued at $10.00 per Unit and incurred Agents’ fees and issue expenses of $9,073,440 or $0.57 per Unit, for an opening Transactional NAV of $9.43 per Unit. The Class U Units were issued at U.S. $10.00 per Unit and incurred Agents’ fees and issue expenses of U.S. $1,004,581 or U.S. $0.57 per Unit, for an opening Transactional NAV of U.S. $9.43 per Unit.

On April 17, 2013, the Agents exercised an over-allotment option in respect of 703,924 Class A Units, raising a further $7,039,240. The Agents’ fees totaled $369,560 or $0.52 per Unit.

During the year ended May 31, 2015, there were 3,426,161 Class A Units redeemed for $31,521,024. There were 315,000 Class U Units redeemed for $3,253,542 and 100,000 Class U Units converted to 115,899 Class A Units for a total value of $1,172,764 (there were 3,000 Class A Units redeemed for $25,992. There were 41,000 Class U Units redeemed for $389,913 and 331,810 Class U Units converted to 356,119 Class A Units for a total value of $3,319,213 during the same period ended May 31, 2014).

MARKET REPURCHASES

The Trust Agreement provides that the Fund may, in its sole discretion, from time to time, purchase (in the open market or by invitation for tenders) Class A Units and Class U Units for cancellation subject to applicable law and stock exchange requirements, based on the Manager's assessment that such purchases are accretive to Unitholders, in all cases at a price per Unit not exceeding the most recently calculated Net Asset Value per Unit of the applicable class immediately prior to the date of any such purchase of Units.

The Fund did not purchase any Class A Units or Class U Units for cancellation during the years ended May 31, 2015 and 2014.

NET ASSETS

The Net Assets per Unit is calculated as the value of the prepaid amount to the Counterparty under the Forward Agreement plus any other investments held by the Fund, plus the value of any gain or loss on the Forward Agreement, less any liabilities net of other assets of the Fund, divided by the number of Units outstanding.

On May 31, 2015, the prepaid amount to the Counterparty under the Forward Agreement was $119,834,167. Since the Fund can at any time terminate the Forward Agreement with the Counterparty in exchange for the value of ISL Loan Trust II, the value of the Forward Agreement to the Fund is equal to the transactional value of ISL Loan Trust II less the value of the prepaid amount to the Counterparty under the Forward Agreement. On May 31, 2015, the value of the unrealized gain on the Forward Agreement was $19,874,799. Other investments held by the Fund totalled $174,506 and other liabilities net of other assets in the Fund totalled $1,647,278, leaving net assets of $138,236,194. This amount is assigned to the Class A and Class U Unitholders using an allocation percentage that takes into consideration any class level specific expenses. On May 31, 2015, the Net Asset Values were $9.24 per Class A Unit and $11.48 or U.S. $9.19 per Class U Unit (On May 31, 2014, the prepaid amount to the Counterparty under the Forward Agreement was $155,936,618. The value of the unrealized gain on the Forward Agreement was $14,211,943. Other investments held by the Fund totalled $6,240,847 and other liabilities net of other assets in the Fund totalled $1,099,388, leaving net assets of $175,290,020. This amount is assigned to the Class A and Class U Unitholders using an allocation percentage that takes into consideration any class level specific expenses. The Net Asset Values were $9.44 per Class A Unit and $10.22 or U.S. $9.41 per Class U Unit). (On May 31, 2013, the prepaid amount to the Counterparty under the Forward Agreement was $155,714,227. The value of the unrealized gain on the Forward Agreement was $1,663,370. Other investments held by the Fund totalled $19,554,900 and other liabilities net of other assets in the Fund totaled $3,009,918, leaving net assets of $ 173,922,579. This amount is assigned to the Class A and Class U Unitholders using an allocation percentage that takes into consideration any class level specific expenses. The Net Asset Values were $9.39 per Class A Unit and $9.68 or U.S. $9.37 per Class U Unit).

DISTRIBUTIONS

The Fund does not have a fixed distribution policy but intends to make monthly distributions based on the actual and expected returns on the Portfolio. The Fund paid an initial distribution of $0.065 per Class A Unit and U.S. $0.065 per Class U Unit covering the period from March 22, 2013 (commencement of operations) to April 30, 2013. The initial distribution amount represents an annualized current yield of 6.0% based on the initial offering price of $10.00 per Unit.

During the year ended May 31, 2015, the Fund paid distributions of $0.600 per Class A Unit and U.S. $0.600 per Class U Unit ($0.600 per Class A Unit and U.S. $0.600 per Class U Unit during the same period ended May 31, 2014).

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

The Independent Review Committee of the Fund tabled no special reports and made no extraordinary material recommendations to management of the Fund during the year ended May 31, 2015.

RELATED PARTY TRANSACTIONS

Management Fees

The Manager receives a management fee from the Fund and ISL Loan Trust II equal in the aggregate to 1.25% per annum of the applicable Net Asset Value (0.50% from the Fund and 0.75% from ISL Loan Trust II) plus applicable taxes, calculated daily and payable monthly in arrears, plus an amount calculated and paid at the end of each calendar quarter equal to 0.40% annually of the Net Asset Value for each Class A or Class U Unit held by the clients of registered dealers.

During the year ended May 31, 2015, the management fees charged to the Fund and ISL Loan Trust II on a combined basis were $1,883,043 plus applicable taxes ($2,111,587 during the same period ended May 31, 2014), out of which $161,285 is outstanding payable as of May 31, 2015 (May 31, 2014 - $199,911).

The Manager is responsible for payment of the Sub-Advisor fees out of these management fees.

Service Fees

From the amounts received by the Manager from the Fund, a service fee is paid by the Manager to each registered dealer whose clients hold Class A Units or Class U Units of the Fund at the end of each calendar quarter. The service fee is equal to 0.40% annually of the Net Asset Value for each Class A Unit or Class U Unit held by the clients of registered dealers, calculated and paid at the end of each calendar quarter.

The service fees charged to the Fund during the year ended May 31, 2015 were $635,939 ($671,584 during the same period ended May 31, 2014), out of which $117,101 is outstanding payable as of May 31, 2015 (May 31, 2014 - $ 140,141).

Independent Review Committee (“IRC”) Fee

The members of the Independent Review Committee are John Crow (chair), Joseph Wright, Robert B. Falconer and Scott Browning. The Independent Review Committee acts as a review committee for a number of investment funds managed by the Manager.

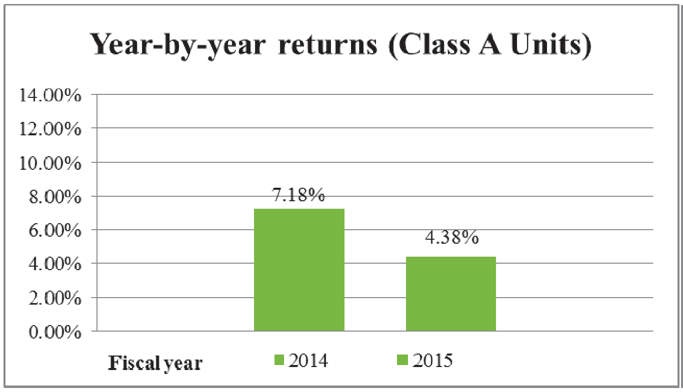
The IRC members each receive $15,000 per annum ($20,000 for the Chairman) plus $1,250 per meeting for acting in such capacity and are also reimbursed for expenses in connection with performing their duties. These fees and expense reimbursements are allocated across investment Funds that are managed by the Manager in a manner that is fair and reasonable. During the year ended May 31, 2015, IRC fees amounted to $6,174 ($4,045 during the year ended May 31, 2014).

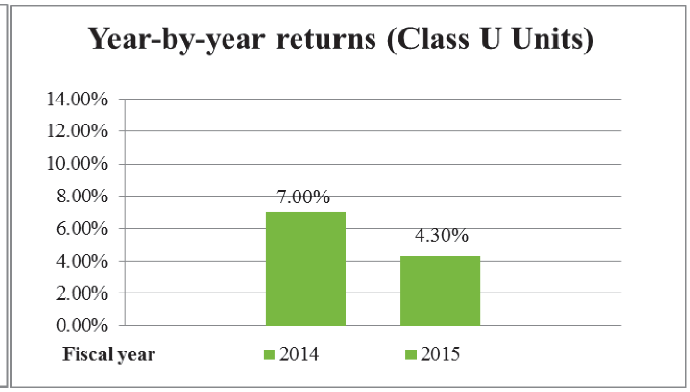
Administration Fees

The Manager allocates back to the Fund a portion of the base salaries of individuals who have spent time working on matters relating to the operations of the Fund. The expenses are directly attributable to the Fund as they relate to time spent on Fund accounting, valuation, taxation, compliance, investor relations, financial and shareholder reporting, cost management, oversight and any other operations matter. During the year ended May 31, 2015, administration fees amounted to $29,392 ($30,011 during the year ended May 31, 2014).

PAST PERFORMANCE

The following bar charts show the Fund's annual performance for the Class A Units and Class U Units as well as the annual performance for the year ended May 31, 2015 assuming all the distributions made by the Fund during the periods shown were reinvested. The performance information does not take into account sales, redemptions, distributions or other optional charges that would have reduced returns or performance. The bar charts show, in percentage terms, how much an investment made on the first day of the period would have grown or decreased by the last day of the period. Past performance is not necessarily indicative of future performance.





Annual Compound Returns

	Past Year	Since Inception [(1)]
Based on NAV (Class A Units)	4.38%	5.60%
Based on share price (Class A Units)	6.43%	2.87%
Based on NAV (Class U Units)	4.30%	5.42%
S&P/LSTA Leveraged Loan Index	2.84%	5.17%

(1) Annualized for the period from March 22, 2013 (commencement of operations) to May 31, 2015.

The S&P/LSTA Leveraged Loan Index is an unmanaged total return index that captures accrued interest, repayments, and market value changes. It represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. Standard & Poor's and the Loan Syndications and Trading Association ("LSTA") conceived the Index to establish a performance benchmark for the syndicated leveraged loan industry. The Index is not subject to any fees or expenses. An investor cannot invest directly in an index.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to aid in understanding the Fund's financial performance since inception. This information is derived from the Fund's audited annual financial statements:

Class A Units:

The Fund's Net Assets per Class A Unit:

	May 31, 2015 CAD	May 31, 2014 CAD	May 31, 2013 (1) CAD
Net Assets, beginning of period (6)	**9.44**	**9.39**	**10.00**
Unit issue expense (2)	–	–	**(0.57)**
Increase (decrease) from operations:			
Total revenues	–	–	–
Total expenses	(0.15)	(0.14)	(0.03)
Realized gains (losses) for the period	0.28	0.01	–
Unrealized gains (losses) for the period	0.23	0.79	0.10
Total increase (decrease) from operations (3)	**0.36**	**0.66**	**0.07**
Distributions:			
From income (excluding dividends)	–	–	–
From dividends	–	–	–
From capital gains	–	–	–
Return of capital	(0.60)	(0.60)	(0.12)
Total Distributions (4)	**(0.60)**	**(0.60)**	**(0.12)**
Net Assets, end of period (5) (6)	**9.24**	**9.44**	**9.39**

(1) Results for the period from March 22, 2013 (commencement of operations) to May 31, 2013.

(2) Issue expenses of $9,443,000 incurred in connection with the Class A Units issuance. The full amount of issue expenses was deducted from the unit capital for accounting purposes and is amortized over a period of five years for tax purposes.

(3) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase / decrease from operations is based on the weighted average number of 15,106,140 Class A Units outstanding as of May 31, 2015 (May 31, 2014 – 16,850,734 units).

(4) The percentages used to allocate distributions among income, dividends, capital gain and return on capital are based on estimates.

(5) This is not a reconciliation between the opening and the closing net assets per unit.

(6) The Fund adopted International Financial Reporting Standards ("IFRS") commencing June 01, 2014. Information for all periods after May 31, 2013 in this schedule are restated under IFRS.

Ratios and Supplemental Data (Class A Units):

	May 31, 2015 CAD	May 31, 2014 CAD	May 31, 2013 (1) CAD
Net assets (000's)	126,970	161,023	156,786
Number of units outstanding	13,748,833	17,059,095	16,705,976
Base Management expense ratio (2) (3)	1.15%	1.52%	1.65%
Issue expenses ratio (2) (3)	0.00%	0.00%	6.10%
Management expense ratio (annualized) (3)	1.15%	1.59%	7.85%
Management expense ratio before waivers or absorptions (annualized) (3)	1.15%	1.59%	7.85%
Portfolio turnover rate (4)	0.00%	0.00%	0.00%
Trading expense ratio (5)	0.01%	0.02%	0.10%
Closing market price (TSX)	9.04	9.08	9.95

(1) Results for the period from March 22, 2013 (commencement of operations) to May 31, 2013.

(2) A separate base management expense ratio has been presented to include the normal operating expenses and exclude the Issue expense ratio: representing all Agents' fees and unit issue expenses.

(3) Management expense ratio is based on total expenses for the stated period and is expressed as an annualized percentage of daily average net asset value during the period. Unit issue expenses, representing all Agents' fees and other offering expenses, which are one-time expenses, have not been annualized.

(4) The Fund's turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund's buying and selling all of the securities (including fixed income) in its portfolio once in the course of the year. There is not necessarily a relationship between turnover rate and the performance of the Fund.

(5) The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

Class U Units:

The Fund's Net Assets per Class U Unit:

	May 31, 2015 USD	May 31, 2014 USD	May 31, 2013 [1] USD
Net Assets, beginning of period [6]	**9.41**	**9.37**	**10.00**
Unit issue expense [2]	–	–	**(0.57)**
Increase (decrease) from operations:			
Total revenues	–	0.01	–
Total expenses	(0.17)	(0.15)	(0.03)
Realized gains (losses) for the period	1.63	0.51	–
Unrealized gains (losses) for the period	0.16	0.71	0.18
Total increase (decrease) from operations [3]	**1.62**	**1.08**	**0.15**
Distributions:			
From income (excluding dividends)	–	–	–
From dividends	–	–	–
From capital gains	–	–	–
Return of capital	(0.60)	(0.60)	(0.12)
Total Distributions [4]	**(0.60)**	**(0.60)**	**(0.12)**
Net Assets, end of period [5] [6]	**9.19**	**9.41**	**9.37**

(1) Results for the period from March 22, 2013 (commencement of operations) to May 31, 2013.

(2) Issue expenses of U.S. $1,004,581 incurred in connection with the Class U Units issuance. The full amount of issue expenses was deducted from the unit capital for accounting purposes and is amortized over a period of five years for tax purposes.

(3) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase / decrease from operations is based on the weighted average number of 1,209,059 Class U Units outstanding as of May 31, 2015 (May 31, 2014 – 1,623,982 units).

(4) The percentages used to allocate distributions among income, dividends, capital gain and return on capital are based on estimates.

(5) This is not a reconciliation between the opening and the closing net assets per unit.

Management's Responsibility for Financial Reporting

The accompanying financial statements of **Voya Diversified Floating Rate Senior Loan Fund** (the "Fund") and all the information therein have been prepared Aston Hill Capital Markets Inc. in its capacity as Manager of the Fund and have been approved by the Board of Directors of the Manager. The Fund's Manager is responsible for all the information and representations contained in these financial statements and other sections of the annual report. Management maintains appropriate processes to ensure that relevant and reliable financial information is produced.

The financial statements have been prepared in accordance with International Financial Reporting Standards. The financial statements are not precise since they include certain amounts based on estimates and judgements. The Manager has determined such amounts on a reasonable basis in order to ensure that the financial statements are presented fairly, in all material respects. Management has ensured that the other financial information presented in this annual report is consistent with the financial statements.

The financial statements have been audited by PricewaterhouseCoopers LLP on behalf of the Unitholders. They have audited the financial statements in accordance with Canadian generally accepted auditing standards to enable them to express to the Unitholders their opinion on the financial statements. Their report is contained within.

Independent Auditor's Report

To the Unitholders and Trustee of
Voya Diversified Floating Rate Senior Loan Fund
(Formerly ING Diversified Floating Rate Senior Loan Fund)
(the Fund)

We have audited the accompanying financial statements of the Fund, which comprise the statements of financial position as at May 31, 2015 and May 31, 2014 and June 1, 2013 and the statements of comprehensive income, changes in net assets attributable to holders of redeemable units and cash flows for the years ended May 31, 2015 and May 31, 2014, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements
Management is responsible for the preparation and fair presentation of the financial statements of the Fund in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility
Our responsibility is to express an opinion on the financial statements of the Fund based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

PricewaterhouseCoopers LLP

T: +1 416 863 1133, F: +1 416 365 8215

Opinion

In our opinion, the financial statements of the Fund present fairly, in all material aspects, the financial position of the Fund as at May 31, 2015, May 31, 2014 and June 1, 2013 and the financial performance and cash flows of the Fund for the years ended May 31, 2015 and May 31, 2014 in accordance with International Financial Reporting Standards.

(1) Related party investment funds.

(2) ING Diversified Floating Rate Senior Loan Fund (the "Fund") obtained exposure to the performance of the portfolio held by ISL Loan Trust II through the Forward Agreement (see note 9); thus, the portfolio of ISL Loan Trust II is presented as part of this statement.
The investments held in the portfolio of ISL Loan Trust II are all floating rate notes.

(3) The unrealized forward currency contract gains and losses are attributed to and allocated solely to the Class A Units of ISL Loan Trust II.

(See accompanying notes to financial statements)

NOTES TO THE FINANCIAL STATEMENTS (FOR THE YEAR ENDING MAY 31, 2015 AND 2014)

1 GENERAL INFORMATION

Voya Diversified Floating Rate Senior Loan Fund (formerly "ING Diversified Floating Rate Senior Loan Fund") (the "Fund") is an investment fund established under the laws of the Province of Ontario and governed by the Trust Agreement (the "Trust Agreement") between Aston Hill Capital Markets Inc. (the "Manager") the Manager of the Fund and RBC Investor Services Trust (the "Trustee") dated February 26, 2013. The Fund commenced operations on March 22, 2013. The Fund's principal office is located at 77 King Street West, Suite 2110, PO Box 92, Toronto, Ontario, M5K 1G8. The fiscal year end of the Fund is May 31.

The Fund is divided into Units of two classes, Class A Units and Class U Units. The Class A Units are listed on the Toronto Stock Exchange (the "TSX") under the symbol IFL.UN. The Class U Units are designed for investors wishing to make their investment in U.S. Dollars. The Class U Units are not listed on a stock exchange but may be converted into Class A Units on a weekly basis. As of the May 31, 2015, the TSX closing price of Class A Units was 9.04.

The Fund's investment objectives are to:

(i) provide tax-advantaged distributions consisting primarily of returns of capital;

(ii) preserve capital; and

(iii) generate increased returns in the event that short-term interest rates rise, in each case, through exposure to a diversified portfolio (the "Portfolio") consisting primarily of senior, secured floating rate corporate loans ("Senior Loans") and other senior debt obligations of non-investment grade North American borrowers held by ISL Loan Trust II (the "ISL Loan Trust II" or the "Trust") and actively managed by Voya Investment Management Co. LLC (the "Sub-Advisor").

In order to achieve the Fund's investment objectives, the Fund obtains exposure, in a tax-efficient manner, to the performance of the Portfolio held by ISL Loan Trust II. The Sub-Advisor invests in a broadly diversified portfolio composed primarily of Senior Loans. The Sub-Advisor generally seeks to make investments in Senior Loans and other debt obligations of borrowers that have: (i) significant levels of asset and/or cash flow coverage; (ii) a protective capital structure, with adequate subordinated debt cushion; (iii) strong senior management; and (iv) attractive market positioning. The Portfolio consists primarily of Senior Loans that are expected to generate increased Portfolio cash flow in the event that short-term interest rates rise above applicable LIBOR floors. Up to 20% of Total Assets of the Fund may be exposed to senior, unsecured floating rate loans and notes, second lien floating rate loans and notes, corporate debt securities, short-term debt obligations, money market obligations, and equity securities that are incidental to investments in loans.

The Fund does not invest directly in ISL Loan Trust II; the Fund used the net proceeds of its initial public offering to pre-pay its purchase obligations under a forward purchase and sale agreement (the "Forward Agreement") with Bank of Nova Scotia (the "Counterparty" or "BNS"). Under the Forward Agreement, the Fund will receive, on or before February 28, 2018, a specified portfolio consisting of securities of Canadian public issuers that are "Canadian securities" for the purposes of the Tax Act in an amount equal to the Net Asset Value of the Trust. Partial settlements under the Forward Agreement are intended to ensure that Unitholders have economic exposure to the distributions effected by ISL Loan Trust II. A fee of 0.45% per annum, calculated with reference to the Net Asset Value of ISL Loan Trust II, is payable to BNS under the Forward Agreement.

2 BASIS OF PREPARATION AND ADOPTION OF INTERNATIONAL FINANCIAL REPORTING STANDARDS

These financial statements have been prepared in compliance with International Financial Reporting Standards (IFRS) as published by the International Accounting Standards Board (IASB) and under the historical cost convention basis, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) at fair value through profit and loss. The Fund adopted this basis of accounting as at June 1, 2014 as required by Canadian securities legislation and the Canadian Accounting Standards Board. Previously, the Fund prepared its financial statements in accordance with Canadian generally accepted accounting principles as defined in Part V of the CPA Handbook (Canadian GAAP). The Fund has consistently applied the accounting policies used in the preparation of its opening IFRS statement of financial position at June 1, 2013 and throughout all periods presented, as if these policies had always been in effect. Note 15 discloses the impact of the transition to IFRS on the Fund's reported financial position, financial performance and cash flows, including the nature and effect of significant changes in accounting policies from those used in the Fund's financial statements for the year ended May 31, 2014 prepared under Canadian GAAP.

These annual financial statements were authorized for issue by the Manager on August 28, 2015.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Manager to exercise its judgment in the process of applying the Funds' accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

3 SIGNIFICANT ACCOUNTING POLICIES

a) Financial instruments

The Fund’s Forward Agreement is designated as fair value through profit or loss (“FVTPL”) in accordance with Chartered Professional Accountant (the “CPA” Canada) 3855, Financial Instruments – Recognition and Measurement (“Section 3855”). As a result of such designation and categorization, the Fund’s investments and derivatives are measured at fair value through profit or loss (“FVTPL”). Leverage, interest payable, distributions payable, accounts payable, accrued liabilities and management fees payable are designated as other financial liabilities and reported at amortized cost which given its short term nature approximates its fair value. The Fund’s obligation for Net Assets attributable to holders of redeemable units is presented at approximately the redemption amount. All other financial assets and liabilities are measured for at amortized cost. Under this method, financial assets and liabilities reflect the amounts required to be received or paid, discounted when appropriate, at the financial instrument’s effective interest rate. The Fund’s accounting policies for measuring the fair value of its investments and derivatives are identical to those used in measuring its published Net Asset Value (NAV). The fair values of the Fund’s financial assets and liabilities that are not carried at FVTPL approximate their carrying amounts due to their short-term nature.

b) Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded marketable securities) are based on quoted market prices at the close of trading on the reporting date. The Fund uses the last traded market price for both financial assets and financial liabilities where the last traded price falls within that day’s bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most that is most representative of fair value based on the specific facts and circumstances. The Fund’s policy is to recognize transfers into and out of the fair value hierarchy levels as of the date of the event or change in circumstances given rise to the transfer.

The fair value of financial assets and liabilities that are not traded in an active market are determined using valuation techniques. The Fund uses a variety of methods and makes assumptions that are based on market conditions existing at each measurement date. Valuation techniques include the use of comparable recent arm’s length transactions, reference to other instruments that are substantially the same and others commonly used by market participants and which make the maximum us of observable inputs. Refer to note 13 for further information about the Fund’s fair value measurements.

c) Cash and Short Term Notes

Cash consists of cash in hand, deposits held with and overdrafts. Cash and short-term investments include cash and cash equivalents with maturities less than 90 days from the date of acquisition.

d) Investment Transactions and Income Recognition

Regular purchases and sales are recognized on the trade date - the date on which the Fund commits to purchase or sell the investment and any realized and unrealized gains or losses are recognized using the average cost of the investments, which excludes broker commissions. The interest income for distribution purposes shown on the Statements of Comprehensive Income (Loss) represents the coupon interest earned by the Fund accounted for on an accrual basis. The Fund does not amortize premiums paid or discounts received on the purchase of fixed income securities except for zero coupon bonds which are amortized on a straight line basis. Dividend income is recognized on the ex-dividend date.

e) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities are expensed and are recognized in the Statements of Comprehensive Income.

f) Income Taxes

The Fund qualifies as a mutual fund trust and is deemed a financial institution under the Income Tax Act (Canada). Provided the Fund makes distributions in each year of its net income and net realized capital gains, the Fund will not generally be liable for income tax. It is the intention of the Fund to distribute all of its net income and net realized and unrealized capital gains on an annual basis. Accordingly, no income tax provision has been recorded. The Fund may incur withholding taxes imposed by certain countries on investment income and capital gains. Such income and gains are recorded on a gross basis and the related withholding taxes are shown as a separate expense in the Statement of Comprehensive Income.

g) Foreign Exchange

The fair values of investments and other assets and liabilities that are denominated in foreign currencies are translated into Canadian dollars at the noon rate of exchange on each valuation date. Purchases and sales of investments and income derived from investments are translated at the rate of exchange prevailing on the date of such transactions.

h) Foreign Currency Translation

The majority of the Funds' subscriptions and redemptions are denominated in Canadian dollar, which is also its functional and presentation currency. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at dates that transactions occur. Foreign currency assets and liabilities denominated in a foreign currency are translated in to the functional currency using the exchange rate prevailing at the measurement date. Foreign exchange gains and losses relating to cash and those relating to other financial assets and liabilities are presented as "Net realized gain (loss) on foreign exchange" in the Statements of Comprehensive Income.

i) Increase (decrease) Net Assets attributable to holders of redeemable units per unit

The increase (decrease) in Net Assets attributable to holders of redeemable units from operations per unit in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in Net Assets attributable to holders of redeemable units from operations per series by the weighted average number of redeemable units outstanding for each relevant series during the period.

j) Valuation of a class and class allocations

A separate net asset per unit is calculated for each class. The net assets of a class are computed by calculating the class' proportionate share of the assets and liabilities to all classes, less the liabilities attributable only to that class. Expenses directly attributable to a class are charged to that class. Other expenses, income, realized and unrealized gains and losses are allocated proportionately to each class based upon the relative Net Assets of each class.

k) Designation of financial assets and liabilities

For the purpose of measuring and recognizing assets and liabilities, the following designations have been made: All investments, including derivatives, if any, are initially recognized at fair value and are designated as FVTPL. Dividends receivable, amounts receivable for units sold and securities sold and other assets are designated as loans and receivables and reported at cost or amortized cost. Amounts payable for securities purchased and capital shares redeemed, other liabilities and accrued expenses are designated as other financials liabilities and reported at amortized cost.

l) Accounting Standards Issued But Not Yet Adopted

The final version of International Financial Reporting Standard (IFRS) 9, Financial Instruments, was issued by IASB in July 2014 and will replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 introduces a model for classification and measurement, a single, forward-looking expected loss impairment model and a substantially reformed approach to hedge accounting. The new single, principle based approach for determining the classification of financial assets is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments, which will require more timely recognition of expected credit losses. It also includes changes in respect of own credit risk in measuring liabilities elected to be measured at fair value, so that gains caused by the deterioration of an entity's own credit risk on such liabilities are no longer recognized in profit or loss. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, however is available for early adoption. In addition, the own credit changes can be early applied in isolation without otherwise changing the accounting for financial instruments. The Company is in the process of assessing the impact of IFRS 9 and has not yet determined when it will adopt the new standard.

4 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires management to use judgment in applying its accounting policies and to make estimates and assumptions about the future. The following discusses the most significant accounting judgments and estimates that the Fund have made in preparing the financial statements:

Classification of Redeemable Units Issued by the Fund

Under Canadian GAAP, the Fund accounted for their redeemable units as equity. Under IFRS, IAS 32 requires that shares of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as a financial liability. A Fund with multiple series fails to meet the criteria outlined in IAS 32.16(a) and (c). Specifically, the unitholders would not be entitled to a pro rata share of the entity's Net Assets attributable to holders of redeemable units upon liquidation due to the differing series, nor would each series have identical features. Accordingly, all of the criteria in IAS 32.16 are not met. As such, in accordance with the standard, Net Assets attributable to holders of redeemable units are presented as liability on the Statements of Financial Position.

Functional and Presentation Currency

The Fund's investors are mainly Canadian residents, with the subscriptions and redemptions of the redeemable shares denominated in Canadian dollars. The primary activity of the Fund is to invest in a prepaid forward agreement and to offer Canadian investors a higher return compared to other products available in Canada. The performance of the Fund is measured and reported to the investors in Canadian dollar. The Manager considers the Canadian dollar as the currency that most faithfully represents the economic effects of the underlying transactions, events and conditions. The financial statements are presented in Canadian dollars, which is the Fund's functional and presentation currency.

Fair Value Measurement of Derivatives and Securities Not Quoted in an Active Market

When the Fund holds financial instruments that are not quoted in active markets, fair values of such instruments are determined using valuation techniques and may be determined using reputable pricing sources (such as pricing agencies) or indicative prices from market markers. Broker quotes as obtained from the pricing sources may be indicative and not executable or binding.

Classification and Measurement of Investments and Application of the Fair Value Option

In classifying and measuring financial instruments held by the Fund, the Manager is required to make judgments about the classification of financial instruments and the applicability of the fair value option to its investments which are not held for trading. The Manager has determined that the Fund's derivatives are held for trading due to their short term nature. The fair value option has been applied to the Fund's investments in fixed income securities and prepaid forward agreement as the investments are managed on a fair value basis in accordance with the Fund's investment strategy.

5 REDEEMABLE UNITS OF THE FUND

The beneficial interest in the net assets and net income of the Fund is divided into two classes of Units, Class A Units and Class U Units. The Fund is authorized to issue an unlimited number of transferable, redeemable Units. The Class U Units are designed for investors wishing to make their investments in U.S. Dollars. The Class U Units may be converted into Class A Units on a weekly basis. Each Unit entitles the holder to the same rights and obligations as a Unitholder and no Unitholder is entitled to any privilege, priority or preference in relation to any other holder of Units, subject to Unitholders of each class being entitled to distributions or redemptions based on the Net Asset Value of the Units of a particular class.

On March 22, 2013, the Fund completed its initial public offering pursuant to the Prospectus dated February 26, 2013. $160,000,000 was raised through the issue of 16,000,000 Class A Units and U.S. $17,714,670 was raised through the issue of 1,771,467 Class U Units. The Class A Units were issued at $10.00 per Unit and incurred Agents' fees and issue expenses of $9,073,440 or $0.57 per Unit, for an opening Transactional NAV of $9.43 The Class U Units were issued at U.S. $10.00 per Unit and incurred Agents' fees and issue expenses of U.S. $1,004,581 or U.S. $0.57 per Unit, for an opening Transactional NAV of U.S. $9.43 per Unit.

On April 17, 2013, the Agents exercised an over-allotment option in respect of 703,924 Class A Units, raising a further $7,039,240. Agents' fees were $369,560 or $0.52 per Unit.

The Class A Units and Class U Units may be redeemed on an Annual Redemption Date, which is the second to last business day of October, subject to certain conditions. In order to effect such a redemption, the Units must be surrendered during the period from the first Business Day (any day except Saturday, Sunday, a statutory holiday in Toronto or any other day on which the TSX is not open for trading) in August until 5:00 p.m. (Toronto time) on August 15 in the year of redemption (the "Notice Period"), subject to the Fund's right to suspend redemptions in certain circumstances. Units properly surrendered for redemption during the Notice Period will be redeemed on the Annual Redemption Date and the Unitholder surrendering such Units will receive payment on or before the Redemption Payment Date, which is the 10th Business Day of the month immediately following an Annual Redemption Date. Redeeming Unitholders will be entitled to receive a redemption price in an amount equal to 100% of the Annual Redemption Price, which is the redemption price per Unit of the relevant class on an Annual Redemption Date less any costs associated with the redemption, including brokerage costs and less any net realized capital gains or income to the Fund that are distributed to a Unitholder concurrently with the proceeds of disposition on redemption. Unitholders depositing Units during the Notice Period will be entitled to elect to receive the Monthly Redemption Amount rather than the Annual Redemption Amount (as defined below).

In addition to the annual redemption right, commencing in 2014, the Class A Units and Class U Units may also be redeemed on a Monthly Redemption Date, which is the second to last business day of each month other than October, subject to certain conditions. In order to effect such a redemption, the Units must be surrendered by no later than 5:00 p.m. (Toronto time) on the date which is the first Business Day of the month preceding the month in which the Monthly Redemption Date falls, subject to the Fund's right to suspend redemptions in certain circumstances. Units properly surrendered for redemption within such period will be redeemed on the Monthly Redemption Date and the Unitholder surrendering such Units will receive payment on or before the Redemption Payment Date, which is the 10th Business Day of the month immediately following a Monthly Redemption Date. Concurrently with the payment of the redemption price, the Fund may pay to the redeeming Unitholder a cash distribution in the amount of the net realized capital gains or income of the Fund incurred by it to fund the payment of the redemption price. Unitholders surrendering a Class A Unit for redemption will receive a redemption price equal to the lesser of (i) 95% of the Market Price of a Class A Unit, which is the weighted average trading price on the TSX (or such other stock exchange on which such security is listed), for the 10 trading days immediately preceding such Monthly Redemption Date and (ii) 100% of the Closing Market Price of a Class A Unit on the applicable Monthly Redemption Date, which is the closing price of such security on the TSX on such Monthly Redemption Date (or such other stock exchange on which such security is listed) or, if there was no trade on the relevant Monthly Redemption Date, the average of the last bid and the last asking pricings of the security on the TSX on such Monthly Redemption Date (or such other stock exchange on which the security is listed) less, in each case, any costs associated with the redemption, including brokerage costs, and less any net realized capital gains or income of the Fund that are distributed to a Unitholder concurrently with the proceeds of disposition of redemption, being the Monthly Redemption Amount. Unitholders surrendering a Class U Unit for redemption will receive in U.S. dollars an amount equal to the U.S. dollar equivalent of the product of (i) the Monthly Redemption Amount and (ii) a fraction, the numerator of which is the most recently calculated Redemption Net Assets per Unit of a Class U Unit and the denominator of which is the most recently calculated Redemption Net Assets per Unit of a Class A Unit.

During the year ended May 31, 2015, there were 3,426,161 Class A Units redeemed for $31,521,024. There were 315,000 Class U Units redeemed for $3,253,542 and 100,000 Class U Units converted to 115,899 Class A Units for a total value of $1,172,764 (there were 3,000 Class A Units redeemed for $25,992. There were 41,000 Class U Units redeemed for $389,913 and 331,810 Class U Units converted to 356,119 Class A Units for a total value of $3,319,213 during the same period ended May 31, 2014).

Changes in outstanding Units during the years ended May 31, 2015 and 2014 are summarized as follows:

	Class A Units		**Class U Units**	
	May 31, 2015	**May 31, 2014**	**May 31, 2015**	**May 31, 2014**
Balance – beginning of year	17,059,095	16,705,976	1,396,657	1,769,467
Class U Units converted to Class A Units	115,899	356,119	(100,000)	(331,810)
Units redeemed	(3,426,161)	(3,000)	(315,000)	(41,000)
Balance – end of year	13,748,833	17,059,095	981,657	1,396,657

6 CUSTODIAN

Pursuant to the Trust Agreement RBC Investor Services Trust (the "Custodian") acts as custodian of the assets of the Fund. The Custodian is also responsible for certain aspects of the Fund's day-to-day operations, including calculating Transactional NAV, net income and net realized capital gains of the Fund and maintaining the books and records of the Fund. In consideration for these services, the Fund pays a fee to the Custodian. The Custodian is rated AA- by S&P as of May 31, 2015 and 2014.

7 DISTRIBUTIONS

The Fund does not have a fixed distribution policy but intends to make monthly distributions based on the actual and expected returns on the Portfolio. The Fund paid an initial distribution of $0.065 per Class A Unit and U.S. $0.065 per Class U Unit covering the period from March 22, 2013 (commencement of operations) to April 30, 2013. The initial distribution amount represents an annualized current yield of 6.0% based on the initial offering price of $10.00 per Unit.

During the year ended May 31, 2015, the Fund paid distributions of $0.600 per Class A Unit and U.S. $0.600 per Class U Unit ($0.600 per Class A Unit and U.S. $0.600 per Class U Unit during the same period ended May 31, 2014).

8 RELATED PARTY TRANSACTIONS

Management Fees

The Manager receives a management fee from the Fund and ISL Loan Trust II equal in the aggregate to 1.25% per annum of the applicable Net Asset Value (0.50% from the Fund and 0.75% from ISL Loan Trust II) plus applicable taxes, calculated daily and payable monthly in arrears, plus an amount calculated and paid at the end of each calendar quarter equal to 0.40% annually of the Net Asset Value for each Class A or Class U Unit held by the clients of registered dealers.

During the year ended May 31, 2015, the management fees charged to the Fund and ISL Loan Trust II on a combined basis were $1,883,043 plus applicable taxes ($2,111,587 during the same period ended May 31, 2014), out of which $161,285 is outstanding payable as of May 31, 2015 (May 31, 2014 - $199,911).

The Manager is responsible for payment of the Sub-Advisor fees out of these management fees.

Service Fees

From the amounts received by the Manager from the Fund, a service fee is paid by the Manager to each registered dealer whose clients hold Class A Units or Class U Units of the Fund at the end of each calendar quarter. The service fee is equal to 0.40% annually of the Net Asset Value for each Class A Unit or Class U Unit held by the clients of registered dealers, calculated and paid at the end of each calendar quarter.

The service fees charged to the Fund during the year ended May 31, 2015 were $635,939 ($671,584 during the same period ended May 31, 2014), out of which $117,101 is outstanding payable as of May 31, 2015 (May 31, 2014 - $ 140,141).

Independent Review Committee ("IRC") Fee

The members of the Independent Review Committee are John Crow (chair), Joseph Wright, Robert B. Falconer and Scott Browning. The Independent Review Committee acts as a review committee for a number of investment funds managed by the Manager.

The IRC members each receive $15,000 per annum ($20,000 for the Chairman) plus $1,250 per meeting for acting in such capacity and are also reimbursed for expenses in connection with performing their duties. These fees and expense reimbursements are allocated across investment Funds that are managed by the Manager in a manner that is fair and reasonable. During the year ended May 31, 2015, IRC fees amounted to $6,174 ($4,045 during the year ended May 31, 2014).

Administration Fees

The Manager allocates back to the Fund a portion of the base salaries of individuals who have spent time working on matters relating to the operations of the Fund. The expenses are directly attributable to the Fund as they relate to time spent on Fund accounting, valuation, taxation, compliance, investor relations, financial and shareholder reporting, cost management, oversight and any other operations matter. During the year ended May 31, 2015, administration fees amounted to $29,392 ($30,011 during the year ended May 31, 2014).

9 PREPAID FORWARD AGREEMENT

The Fund does not invest directly in ISL Loan Trust II; the Fund used a portion of the net proceeds of the initial public offering to pre-pay its purchase obligations under a forward purchase and sale agreement (the “Forward Agreement”) with the Bank of Nova Scotia (the “Counterparty” or “BNS”) whose S&P credit rating was A+ as of May 31, 2015 (A+ as of May 31, 2014; AA- as of May 31, 2013). Under the Forward Agreement, the Fund will receive, on or before February 28, 2018, a specified portfolio consisting of securities of Canadian public issuers that are “Canadian securities” for the purposes of the Tax Act (“Canadian Securities”) in an amount equal to the value of ISL Loan Trust II. Partial settlements under the Forward Agreement are intended to ensure that Unitholders have economic exposure to the distributions effected by ISL Loan Trust II. A counterparty fee of 0.45 % per annum, calculated daily with reference to the NAV of ISL Loan Trust II, is payable to BNS under the Forward Agreement.

On May 31, 2015, the prepaid amount to the Counterparty under the Forward Agreement was $119,834,167. Since the Fund can at any time terminate the Forward Agreement with the Counterparty in exchange for the value of ISL Loan Trust II, the value of the Forward Agreement to the Fund is equal to the transactional value of ISL Loan Trust II less the value of the prepaid amount to the Counterparty under the Forward Agreement. On May 31, 2015, the value of the unrealized gain on the Forward Agreement was $19,874,799. Other investments held by the Fund totalled $174,506 and other liabilities net of other assets in the Fund totalled $1,647,278, leaving net assets of $138,236,194. This amount is assigned to the Class A and Class U Unitholders using an allocation percentage that takes into consideration any class level specific expenses. On May 31, 2015, the Net Asset Values were $9.24 per Class A Unit and $11.48 or U.S. $9.19 per Class U Unit (On May 31, 2014, the prepaid amount to the Counterparty under the Forward Agreement was $155,936,618. The value of the unrealized gain on the Forward Agreement was $14,211,943. Other investments held by the Fund totalled $6,240,847 and other liabilities net of other assets in the Fund totalled $1,099,388, leaving net assets of $175,290,020. This amount is assigned to the Class A and Class U Unitholders using an allocation percentage that takes into consideration any class level specific expenses. The Net Asset Values were $9.44 per Class A Unit and $10.22 or U.S. $9.41 per Class U Unit). (On May 31, 2013, the prepaid amount to the Counterparty under the Forward Agreement was $155,714,227. The value of the unrealized gain on the Forward Agreement was $1,663,370. Other investments held by the Fund totalled $19,554,900 and other liabilities net of other assets in the Fund totalled $3,009,918, leaving net assets of $ 173,922,579. This amount is assigned to the Class A and Class U Unitholders using an allocation percentage that takes into consideration any class level specific expenses. The Net Asset Values were $9.39 per Class A Unit and $9.68 or U.S. $9.37 per Class U Unit).

Federal budget announcement: On March 21, 2013, the Minister of Finance announced proposals in a federal budget that would treat the gain realized by a mutual fund under such forward agreements as ordinary income rather than a capital gain, if the forward agreement was entered into or extended on or after March 21, 2013. On July 11, 2013, the Department of Finance announced proposed technical changes to the transitional rules related to character conversion transactions announced in the federal budget. One of the announced changes includes the extension of the transition period for short-term agreements. The extended grandfathered period allows investment funds, whose forward agreements were entered into prior to March 21, 2013 and the terms of which provide for settlement or are a part of series of agreements that provide for settlement prior to 2015, to extend their forward agreements until end of 2014. For longer-dated forward agreements, the grandfathering transitional period will not extend beyond March 21, 2018. Grandfathering is subject to certain growth rules with which the Fund intends to comply. The federal budget, part of Bill C-4, was enacted into law on December 12, 2013.

Pursuant to the material changes as mentioned in “Investment Objective and Strategies” above, the Forward Agreement will remain until its scheduled termination on February 28, 2018, as a result of the above mentioned changes to the Income Tax Act, the Forward Agreement will be terminated and the Fund will hold the Portfolio held by BNS directly.

10 MARKET PURCHASE PROGRAM

The Fund’s Trust Agreement provides that the Fund may, in its sole discretion, from time to time, purchase (in the open market or by invitation for tenders) Units for cancellation subject to applicable law and stock exchange requirements, based on the Manager’s assessment that such purchases are accretive to Unitholders, in all cases at a price per Unit not exceeding the most recently calculated NAV per Unit of the applicable class immediately prior to the date of any such purchase of Units. These purchases are made as normal course issuer bids through the facilities and under the rules of the TSX or such other exchange or market on which the Units are listed.

The Fund did not purchase any Class A Units or Class U Units for cancellation during the years ended May 31, 2015 and 2014.

11 INCOME TAXES

The Fund qualifies as a mutual fund trust under the provisions of the Income Tax Act (Canada) and accordingly, is subject to tax on its investment income, including net realized capital gains, for any calendar year in which its net investment income or sufficient net realized capital gains are not paid or payable to its Unitholders as at the end of the calendar year. It is the intention of the Manager that all annual net investment income and sufficient net taxable capital gains will be distributed to Unitholders on a calendar year basis such that Canadian income taxes payable by the Fund will be minimized. As a result thereof and of the deduction of expenses in computing its taxable income, no provisions for income taxes are made in the financial statements.

As at tax year end December 31, 2014, the Fund had net capital losses of $580,028, (December 31, 2013 – $Nil), which may be carried forward indefinitely to reduce future realized capital gains and non-capital losses of $5,204,949 (December 31, 2013 – $3,059,448), which will expire within the next twenty years as shown in the following table:

Year of the realized non-capital tax loss	Amount of tax loss	Expiry date
2013	3,059,448	2033
2014	2,145,501	2034
Total	**5,204,949**	

12 BROKER COMMISSION CHARGES AND SOFT DOLLAR SERVICES

There was $18,402 of broker commissions paid during the year ended May 31, 2015 in connection with portfolio transactions ($24,295 of broker commissions paid during the same period May 31, 2014). No contractual arrangements for soft dollar services exist in the broker commission charges.

13 FAIR VALUE MEASUREMENT

The Fund's assets and liabilities recorded at fair value have been categorized within a hierarchy which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (level 3). The Fund classifies its investments and derivative assets/liabilities into three categories based on the nature of the inputs used to determine their fair value. The categories and the nature of the inputs used in each category are as follows:

Level l: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs, other than quoted prices that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3: Inputs that are unobservable, there is little if any market activity. Inputs into the determination of fair value require significant management judgement or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The Fund obtained exposure to the performance of the portfolio held by ISL Loan Trust II through the Forward Agreement (see note 9) and therefore, the following tables illustrate the classification of the Fund's and the Trust's financial instruments within the fair value hierarchy as at May 31, 2015, May 31, 2014 and June 01, 2013. The prepaid forward agreement is a level 2 security as its value is based on observable input as at May 31, 2015.

Assets at fair value as at May 31, 2015	Level 1	Level 2	Level 3	Total
Term loans	–	191,507,322	–	191,507,322
Equities	1,290,251	–	–	1,290,251
Exchange traded funds	174,506			174,506
Foreign currency forward contracts	–	484,057	–	484,057
Total	**1,464,757**	**191,991,379**	–	**193,456,136**

Liabilities at fair value as at May 31, 2015	Level 1	Level 2	Level 3	Total
Foreign currency forward contracts	–	5,258,567	–	5,258,567
Total	–	**5,258,567**	–	**5,258,567**

Assets at fair value as at May 31, 2014	Level 1	Level 2	Level 3	Total
Term loans	–	251,206,854	–	251,206,854
Equities	1,453,816	–	–	1,453,816
Exchange traded funds	6,240,847	–	–	6,240,847
Foreign currency forward contracts	–	439,460	–	439,460
Total	**7,694,663**	**251,646,314**	–	**259,340,977**

Liabilities at fair value as at May 31, 2014	Level 1	Level 2	Level 3	Total
Foreign currency forward contracts	–	43,829	–	43,829
Total	–	**43,829**	–	**43,829**

Assets at fair value as at June 01, 2013	Level 1	Level 2	Level 3	Total
Term loans	–	246,260,248	–	246,260,248
Exchange traded funds	14,700,515	–	–	14,700,515
Short-term investments	–	23,260,869	–	23,260,869
Foreign currency forward contracts	–	364,534	–	364,534
Total	**14,700,515**	**269,885,651**	–	**284,586,166**

Liabilities at fair value as at June 01, 2013	Level 1	Level 2	Level 3	Total
Foreign currency forward contracts	–	2,831,097	–	2,831,097
Total	–	**2,831,097**	–	**2,831,097**

Fair values are classified as Level 1 when the related security or derivative is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, the instruments are reclassified into Level 2, unless the measurement of its fair value requires the use of significant unobservable inputs, in which case it is classified as Level 3.

Term loans, short-term investments and prepaid forward agreement: Term loans and Short-term investments are classified as Level 2 as they are valued using observable inputs, including interest rate curves, credit spreads and volatilities and are not actively traded. The prepaid forward agreement is a level 2 security as its value is based on observable input which is not actively traded.

Equities: The Fund's long equity positions are classified as Level 1 as the security held is actively traded and a reliable quote is observable.

Foreign currency forward contracts: Foreign currency forward contracts for which inputs, including interest rates, forward market rates and credit spreads are observable and reliable or for which unobservable inputs are determined not to be significant to fair value, are classified as Level 2.

There were no transfers among the three levels during the year ended May 31, 2015, May 31, 2014 and June 1, 2013.

14 FINANCIAL INSTRUMENT RISK

The Fund obtained exposure to the performance of the portfolio held by ISL Loan Trust II through the Forward Agreement (see note 9) and therefore, the risks associated with an investment in the Fund's Units are best defined in conjunction with financial risks associated with an investment in the Trust's portfolio.

Credit risk

The Fund is exposed to the risk that a security issuer or counterparty will be unable to pay amounts in full when due. The fair value of debt and debt-like securities includes consideration of the credit worthiness of the debt issuer. The carrying amount of these investments and the unrealized gain on derivative instruments outstanding with counterparties represents the maximum credit risk exposure as at May 31, 2015, May 31, 2014 and June 1, 2013.

The tables below summarize the exposure to credit risk through its investment in ISL Loan Trust II as of May 31, 2015, May 31, 2014 and June 1, 2013. Amounts shown are based on the carrying value of debt investments and the unrealized gain (loss) on derivative instruments outstanding with counterparties. The counterparty to the prepaid forward contracts had S&P credit ratings of A+ as of May 31, 2015, May 31, 2014 and June 1, 2013.

Rating	May 31, 2015 (% of NAV)	May 31, 2014 (% of NAV)	June 1, 2013 (% of NAV)
AA-	–	0.2%	9.1%
A-1+	–	–	0.3%

As at May 31, 2015, May 31, 2014 and June 1, 2013, no debt securities were contractually past due and no longer meeting interest payment obligations.

All transactions in listed securities are settled or paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Interest rate risk

Interest rate risk arises on interest-bearing financial instruments held in the investment portfolio such as bonds and short-term notes. Since the Senior Loans portfolio held by ISL Loan Trust II are floating rate instruments with a very short duration, changes in the prevailing levels of market interest rates are not expected to have a significant impact on the fair value of the portfolio but since the loans have a base rate of LIBOR, the yield to the funds will change as LIBOR fluctuates. As at May 31, 2015, May 31, 2014 and June 01, 2013, interest rate risk was minimal.

Currency risk

Currency risk arises from financial instruments that are denominated in a currency other than the functional currency of the Fund, which is the Canadian dollar ("CAD"). Both the Class A Units and the Class U Units are exposed to the risk that the value of securities denominated in other currencies will fluctuate due to changes in exchange rates. The Schedule of Investment Portfolio identifies all securities denominated in foreign currencies.

The table below summarize the indirect exposure the Fund has to foreign currencies via its investment in a prepaid forward agreement whose value is based on the NAV of the ISL Loan Trust II. The first table shows sensitivity evaluation due to exposure to the U.S. dollar for the Fund (Since the Class U Units are denominated in U.S. dollars, the unrealized forward currency contract gains and losses are allocated solely to the Class A units of ISL Loan Trust II), while the second table shows exposure to the Euro for both the Class A Units and the Class U Units. Amounts shown are based on the carrying values of monetary and non-monetary assets as well as the underlying principal amounts of foreign currency derivatives such as forward contracts. Other financial assets and liabilities denominated in foreign currencies do not expose the Fund to significant currency risk. The tables below summarize the significant exposure to foreign currencies and the approximate impact on net assets had the functional currency of each Class of Units weakened by 5% in relation to these currencies. If the functional currency were to strengthen relative to these currencies, the opposite would occur. In practice, actual results may differ from this sensitivity analysis and the difference could be material.

May 31, 2015:

	Monetary instruments $	Non-monetary instruments $	Derivative instruments $	Net Exposure $	% of Net Assets	Sensitivity (based on devaluation of CAD) $
U.S. Dollar	141,211,567	1,290,251	(128,707,071)	13,794,747	10.0%	690,000

May 31, 2015:

	Monetary instruments $	Non-monetary instruments $	Derivative instruments $	Net Exposure $	% of Net Assets	Sensitivity (based on devaluation of CAD) $
Euro	885,386	–	(849,468)	35,918	0.0%	2,000

May 31, 2014:

	Monetary instruments $	Non-monetary instruments $	Derivative instruments $	Net Exposure $	% of Net Assets	Sensitivity (based on devaluation of CAD) $
U.S. Dollar	161,809,661	1,453,816	(144,182,335)	19,081,142	10.9%	954,000

June 1, 2013:

	Monetary instruments $	Non-monetary instruments $	Derivative instruments $	Net Exposure $	% of Net Assets	Sensitivity (based on devaluation of CAD) $
U.S. Dollar	160,121,705	–	(140,355,954)	19,765,751	11.4%	988,000

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities. Unitholder redemption requests are the main liquidity risk for the Fund. The Fund invests the majority of its assets in investments that are traded in an active market and can be readily disposed of. There can be no assurance that an active trading market for the investments will exist at all times, or that the prices at which the securities trade accurately reflect their values. Thin trading in a security could make it difficult to liquidate holdings quickly. The Fund is exposed to liquidity risk through its redemptions. To manage liquidity risk, the Fund's investment portfolio comprises readily marketable securities.

All of the Fund's financial liabilities at May 31, 2015, May 31, 2014 and June 1, 2013 had maturities of less than one year. The tables below analyze the Fund's financial liabilities into relevant maturity groupings based on the remaining period to the contractual maturity date. The amounts in the tables are the contractual undiscounted amounts.

As at May 31, 2015:

Financial liabilities	On Demand	less than 3 months	Total
Distributions payable	$	$ 752,798	$ 752,798
Accounts payable and accrued liabilities	–	288,424	288,424
Redemption payable	–	718,294	718,294
Management fees payable	–	66,618	66,618
Total	**$ –**	**$ 1,826,134**	**$ 1,826,134**

As at May 31, 2014:

Financial liabilities	On Demand	less than 3 months	Total
Distributions payable	$	$ 929,326	$ 929,326
Accounts payable and accrued liabilities	–	408,211	408,211
Management fees payable	–	84,060	84,060
Total	**$ –**	**$ 1,421,597**	**$ 1,421,597**

As at June 1, 2013:

Financial liabilities	On Demand	less than 3 months	Total
Distributions payable	$	$ 926,741	$ 926,741
Accounts payable and accrued liabilities	–	668,864	668,864
Payable on investment purchases	–	1,388,801	1,388,801
Management fees payable	–	83,394	83,394
Total	**$ –**	**$ 3,067,800**	**$ 3,067,800**

15 TRANSITION TO IFRS

The effect of the Funds' transition to IFRS is summarized in this note as follows:

Transition Elections

The only voluntary exemption adopted by the Funds upon transition was the ability to designate financial assets or financial liability at fair value through profit and loss upon transition to IFRS. All financial assets designated at FVTPL upon transition were previously carried at fair value under Canadian GAAP as required by Accounting Guideline 18, Investment Companies.

Classification of Redeemable Units Issued by the Funds

Under Canadian GAAP, the Fund accounted for its redeemable units as equity. Under IFRS, IAS 32 requires that units of an entity which include a contractual obligation for the issuer to repurchase or redeem them for cash or another financial asset be classified as financial liability. The counterparty fee's relating to the prepaid forward agreement have been reclassified to net realized appreciation (depreciation) on prepaid forward agreement. The Funds' units do not meet the criteria in IAS 32 for classification as equity and therefore, have been reclassified as financial liabilities on transition to IFRS.

Revaluation of investments at Fair Value through Profit or Loss

Under Canadian GAAP, the Fund measured the fair values of its investments in accordance with Section 3855, Financial Instruments – Recognition and Measurement, which required the use of bid prices for long positions and ask prices for short positions; to the extent such prices are available. Under IFRS, the Fund measures the fair values of its investments using the guidance in IFRS 13, Fair Value Measurement (IFRS 13), which requires that if an asset or a liability has a bid price and an ask price, then its fair value is to be based on a price within the bid-ask spread that is most representative of fair value. It also allows the use of mid-market pricing or other pricing conventions that are used by market participants as a practical expedient for fair value measurements within a bid-ask spread. As a result, upon adoption of IFRS there were no adjustment was recognized to the carrying amount of the Fund's investments at May 31, 2014 and June 1, 2013 and therefore the Fund's Net Assets attributable to holders of redeemable units had no change as of May 31, 2014 and June 1, 2013.

S&P credit rating of the Counterparty of the Prepaid Forward Agreement was A+ as of May 31, 2015 (A+ as of May 31, 2014; AA- as of May 31, 2013).

Classification of counterparty fee's as part of FVTPL

The counterparty fees relating to the prepaid forward agreement have been reclassified to net realized appreciation (depreciation) on prepaid forward agreement.

16 FINANCIAL INSTRUMENTS BY CATEGORY

The following table presents the net gains (losses) on financial instruments at FVTPL by category for the years ended May 31, 2015 and 2014.

	Net gains (losses)	
Net gains (losses) on financial instruments at FVTPL	**May 31, 2015**	**May 31, 2014**
Financial Assets and Liabilities at FVTPL:		
Held for Trading	—	—
Designated at inception	9,437,038	14,964,797
Total financial assets and liabilities at FVTPL	9,437,038	14,964,797
