

A O G . U N

Actively managed portfolio of oil and gas securities
on a tax-advantaged basis.

MANAGEMENT RESPONSIBILITY STATEMENT

The accompanying financial statements of Aston Hill Advantage Oil & Gas Income Fund (the “Fund”) have been prepared by Aston Hill Asset Management Inc. (the “Manager”) and approved by the Board of Directors of the Manager. The Manager is responsible for the information and representations contained in these financial statements and the other sections of the annual report.

The Manager maintains appropriate procedures to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with accounting principles generally accepted in Canada and include certain amounts that are based on estimates and judgments. The significant accounting policies applicable to the Fund are described in note 2 to the financial statements.

The Board of Directors of the Manager is responsible for ensuring that management fulfills its responsibilities for financial reporting and has reviewed and approved these financial statements.

The Manager, with the approval of its Board of Directors, has appointed the external firm of PricewaterhouseCoopers LLP as the auditors of the Fund. They have audited the financial statements of the Fund in accordance with Canadian generally accepted auditing standards to enable them to express to unitholders their opinion on the financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of Aston Hill Advantage O&G Income Fund (the Fund)

We have audited the accompanying financial statements of the Fund, which comprise the statement of investment portfolio as at December 31, 2012, the statements of net assets as at December 31, 2012 and 2011 and the statements of operations and deficit, and changes in net assets for the years then ended, and the related notes, which comprise a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform an audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2012 and 2011 and the results of its operations, and the changes in its net assets for the years then ended in accordance with Canadian generally accepted accounting principles.

NOTES TO THE FINANCIAL STATEMENTS

December 31, 2012 and 2011

1. OPERATIONS

Aston Hill Advantage Oil & Gas Income Fund (the “Fund”) is a closed-end investment trust created under the laws of the Province of Ontario on February 24, 2005, pursuant to an amended and restated declaration of trust. Computershare Trust Company of Canada is the Trustee of the Fund and Aston Hill Asset Management Inc. (the “Manager”) is responsible for managing the affairs of the Fund. RBC Investor Services Trust is the custodian of the Fund’s assets and prepares the weekly valuations of the Fund. The Fund commenced operations on March 17, 2005.

On July 27, 2011, by way of an assignment to an affiliate, BFML Management Limited (at the time, an affiliate of Brompton Funds Management Limited) was sold to Aston Hill Financial Inc. BFML Management Limited was then renamed Aston Hill Management Limited and became the Manager.

On December 30, 2011, Aston Hill Management Limited, along with six other subsidiaries of Aston Hill Financial Inc., amalgamated to form Aston Hill Asset Management Inc. (“AHAM”), which is the current Manager of the Fund.

The Fund’s investment objectives are to achieve a high level of monthly tax-advantaged distributions and the opportunity for capital appreciation by investing in a diversified portfolio of dividend-paying equities and convertible debt of oil and gas producers, energy service companies and pipeline entities.

The Fund has a forward agreement (“Forward Agreement”) which provides exposure to the return on the portfolio held by Aston Hill O&G Trust and tax advantages. The return to investors of the Fund is dependent upon the return of the Aston Hill O&G Trust portfolio pursuant to the Forward Agreement. As a result, these notes to the financial statements include discussion of the performance of Aston Hill O&G Trust, where applicable.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared in accordance with Canadian generally accepted accounting principles (“GAAP”) and they include estimates and assumptions made by management that affect the reported amounts of assets and liabilities at the date of these financial statements and the reported amounts of income and expenses during the periods for which the financial statements report. Actual results could differ from these estimates.

a) Valuation of Investments

Investments are deemed held for trading in accordance with Canadian Institute of Chartered Accountants (“CICA”) Handbook Section 3855. The Fund’s investments are valued at fair value. Investments that are publicly traded are valued at their bid price on the valuation date. Investments with no available bid price are valued at their closing price. Short-term investments and bonds are valued at the average bid quotations from recognized investment dealers. The cost of investments is based on their average cost.

b) Cash and Short-Term Investments

Cash and short-term investments consist of cash on hand and short-term debt investments with original maturities of three months or less. Cash and short-term investments are deemed held for trading and therefore are carried at fair value.

c) Investment Transactions and Income Recognition

Investment transactions are recorded on the trade date, and any realized and unrealized gains or losses are recognized using the average cost of the investments, which excludes broker commissions. Interest income is recognized on an accrual basis.

d) Transaction Costs

Transaction costs, such as brokerage commissions, incurred in the purchase and sale of securities are expensed and are recognized in the Statements of Operations and Deficit.

e) Income Taxes

The Fund qualifies as a mutual fund trust under the Income Tax Act (Canada). Provided the Fund makes distributions in each year of its net income and net realized capital gains, the Fund will not generally be liable for income tax. It is the intention of the Fund to distribute all of its net income and net realized capital gains on an annual basis. Accordingly, no income tax provision has been recorded.

f) Foreign Exchange

The fair values of investments and other assets and liabilities that are denominated in foreign currencies are translated into Canadian dollars at the noon rate of exchange on each valuation date. Purchases and sales of investments and income derived from investments are translated at the rate of exchange prevailing on the date of such transactions.

g) Valuation of Forward Agreement

The Forward Agreement is valued at the gain or loss that would be realized on the valuation date if the contract were closed or expired. The amount to be received (or paid) on the Forward Agreement as at the valuation date is recognized as fair value of the Forward Agreement on the Statements of Net Assets. All unrealized gains (losses) arising from the Forward Agreement are recorded as part of change in unrealized gain (loss) on Forward Agreement in the Statements of Operations and Deficit.

The Forward Agreement is classified as held for trading in accordance with CICA Handbook Section 3855.

h) Other Assets and Liabilities

For the purposes of categorization in accordance with Section 3855, other assets are designated as loans and receivables and recorded at amortized cost. Similarly, distributions payable to unitholders, and accounts payable and accrued liabilities are deemed to be other financial liabilities and reported at amortized cost. Amortized cost approximates fair value for these liabilities due to their short-term nature.

i) Warrants

Warrants are accounted for as equity in the financial statements. Upon issuance, a deemed distribution is recorded as a charge to retained earnings based on the fair value of the warrants on the date of issuance. The fair value of warrants, net of the related warrant issue costs, is categorized as a separate component of unitholders' equity and reclassified to unitholders' capital as the warrants are exercised. Any portion of the warrant capital related to warrants that expire is transferred to contributed surplus upon the expiry of the related warrants.

While the warrants are outstanding, diluted Net Assets per unit is calculated when the closing price of the Fund's units on a valuation date is greater than the subscription price. To calculate diluted Net Assets per unit, Net Assets are increased by the net proceeds received from the exercise of all warrants, and units are increased by the number of units issued from the exercise of all warrants.

Diluted increase (decrease) in Net Assets from operations per unit is calculated using the treasury stock method.

j) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of increases and decreases in Net Assets from operations during the reporting period. A significant area requiring the use of management judgments and estimates is the valuation of non-public investments. The resulting values may materially differ from values that would have been used had a readily available market existed for the investments and the prices at which the investments may be sold.

k) Transition to International Financial Reporting Standards

The Canadian Institute of Chartered Accountants ("CICA") Accounting Standards Board extended the deferral of the mandatory International Financial Reporting Standards ("IFRS") changeover date for investment companies to fiscal years beginning on or after January 1, 2014. The Fund, which is an investment company, will adopt IFRS commencing January 1, 2014.

In order to prepare for the transition to IFRS, the Manager has performed an assessment of the impact of the significant accounting differences between IFRS and Canadian GAAP including the impact to business processes and systems. Currently, the Manager does not expect any significant impact to Net Assets from the changeover to IFRS, with the main impact of IFRS on the Fund's financial statements being additional disclosures in the financial statements, the potential elimination of the difference between the Net Assets per unit and the Net Asset Value per unit at the financial statement reporting dates and a potential change in the presentation of unitholders' equity. Further updates on implementation progress and any changes to reporting impacts from the adoption of IFRS will be provided during the implementation period leading up to January 1, 2014. However, this present determination is subject to change resulting from the issuance of new standards or new interpretations of existing standards.

3. RECONCILIATION OF NET ASSETS TO NET ASSET VALUE

In accordance with National Instrument ("NI") 81-106, a reconciliation is required between the Net Assets for financial reporting purposes (the "Net Assets") and the Net Asset Value for reporting other than in the financial statements (the "Net Asset Value"). The reconciliation is as follows:

As at December 31	2012		2011	
	Total	Per Unit	Total	Per Unit
Net Asset Value	\$ 36,921,458	\$ 4.89	\$ 46,345,174	\$ 5.33
Section 3855 adjustment ⁽¹⁾	(87,563)	(0.01)	(95,558)	(0.01)
Net Assets	\$ 36,833,895	\$ 4.88	\$ 46,249,616	\$ 5.32

⁽¹⁾ The Section 3855 adjustment relates to the valuation of investments traded on an exchange at bid price for Net Assets and at closing price for Net Asset Value.

NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2012 and 2011

4. UNITS OF THE FUND**Authorized**

The Fund is authorized to issue an unlimited number of transferable, redeemable units of beneficial interest, each of which represents an equal, undivided interest in the Net Assets of the Fund. Each unit entitles the holder to one vote and to participate equally with respect to any and all distributions made by the Fund. Units may be redeemed at the option of unitholders by tendering units of the Fund by the last business day of July for redemption on the second last business day of each August (“Redemption Valuation Date”). Redemption of tendered units will be settled based on the Net Asset Value per unit on the Redemption Valuation Date, less associated costs of the redemption, including brokerage costs. Units tendered for redemption will be redeemed effective on the Redemption Valuation Date and will be settled on or before the tenth business day in September.

Units may also be redeemed at the option of unitholders at least 20 business days prior to the second last business day of each month, except for the month of August. Unitholders whose units are redeemed will receive a redemption price per unit equal to the lesser of (i) 94% of the weighted average trading price of the units for the 10 trading days immediately preceding the redemption date and (ii) 100% of the closing market price of the units.

Pursuant to the issuer bid, the Fund could purchase up to 1,330,900 of its units for cancellation when the Net Asset Value per unit exceeded its trading price for the period from April 13, 2011 to April 12, 2012. The Fund renewed the issuer bid for the period from April 13, 2012 to April 12, 2013, which allows the Fund to purchase up to 864,616 units for cancellation.

Issued

	2012		2011	
	Number of Units	Amount	Number of Units	Amount
Units, beginning of year	8,699,968	\$ 47,976,004	9,412,118	\$ 59,342,221
Issuance of units upon exercise of warrants (note 5)	—	—	3,979,063	23,537,954
Repurchase of units under normal issuer bids	(191,400)	(1,253,099)	(300,800)	(1,984,444)
Redemption of units	(965,611)	(6,327,180)	(4,390,413)	(28,732,244)
Return of capital	—	(2,962,581)	—	(4,187,483)
Warrant cost adjustment (note 5)	—	74,376	—	—
Units, end of year	7,542,957	\$ 37,507,520	8,699,968	\$ 47,976,004

The Fund issued no units (2011 – 3,979,063) upon exercise of warrants for net proceeds of nil (2011 – \$22,402,125) during the year ended December 31, 2012.

On August 31, 2012, 965,611 units were redeemed at \$4.86 per unit (2011 – 4,390,397 units at \$5.47 per unit).

During the year ended December 31, 2012, no units (2011 – 16) were redeemed under the monthly redemption.

During the year ended December 31, 2012, 191,400 units (2011 – 300,800) were purchased for cancellation.

As of December 31, 2012, the Fund has accumulated contributed surplus of \$61,201,837 (2011 – \$59,223,243) since inception. Contributed surplus is recorded when units of the Fund are redeemed or repurchased at prices per unit which are below the average cost per unit of unitholders’ capital.

The weighted average number of units outstanding for the year ended December 31, 2012 was 8,262,179 (2011 – 10,892,227).

5. WARRANTS

The Fund issued 3,979,063 warrants to unitholders of record on February 22, 2011. Unitholders received warrants on the basis of one-half of one warrant for each unit held. One warrant entitled the holder to subscribe for one unit of the Fund at a subscription price of \$5.72. Warrants not exercised prior to March 24, 2011 were void and of no value. Upon the exercise of a warrant, the Fund paid a fee equal to \$0.09 per warrant to the dealer whose client was exercising the warrant. All warrants were exercised by March 24, 2011. Pursuant to the warrant offering, the Fund issued 3,979,063 units for net proceeds of \$22,402,119. Based on the closing price of the first trading day, the fair value of each warrant on the date of issuance was \$0.20 per warrant. Costs associated with the issuance of these warrants amounted to \$120,733.

For the year ended December 31, 2011, there were \$74,376 in accrued costs relating to previous issuances of warrants that, at December 31, 2012, were no longer considered payable, resulting in an adjustment to issuance costs.

6. CAPITAL MANAGEMENT

The Fund’s objectives in managing its capital are to provide unitholders with high monthly, tax-advantaged cash distributions and the opportunity for capital appreciation. The Fund’s capital is comprised of unitholders’ equity. The Fund manages its capital taking into consideration the risk characteristics of its holdings. In order to manage its capital structure, the Fund may adjust the amount of distributions paid to unitholders, return capital to unitholders, purchase units for cancellation, or settle the Forward Agreement in whole or in part.

7. FORWARD AGREEMENT

The Fund entered into a forward purchase and sale agreement (the “Forward Agreement”) with a Canadian chartered bank (the “Counterparty”). The obligations of the Counterparty to the Fund under the Forward Agreement are determined by reference to the performance of Aston Hill O&G Trust.

Under the terms of the Forward Agreement, the Counterparty has agreed to pay to the Fund, on or about July 19, 2028 or earlier, in whole or in part at the request of the Fund, an amount equal to the redemption proceeds of the number of units of Aston Hill O&G Trust specified in the Forward Agreement in exchange for a portfolio of Canadian securities with an aggregate value equal to the redemption proceeds of the number of units of Aston Hill O&G Trust as specified in the Forward Agreement.

In order to permit the Fund to pay (i) monthly distributions, (ii) redemptions and repurchases of units, and (iii) operating expenses and other liabilities of the Fund, the terms of the Forward Agreement provide that the Forward Agreement may be settled in whole or in part prior to July 19, 2028, by the Fund at its discretion.

Under the Forward Agreement, the Fund pays to the Counterparty a fee of 0.25% of the Net Asset Value of Aston Hill O&G Trust, calculated and payable monthly in arrears.

8. DISTRIBUTIONS PAYABLE TO UNITHOLDERS

Distributions of the Fund, as declared by the Manager, are made on a monthly basis to unitholders of record on the last business day of each month. The distributions are payable by the tenth business day of the following month. For the year ended December 31, 2012, the Fund declared total distributions of \$0.36 (2011 – \$0.39) per unit, which amounted to \$2,962,581 (2011 – \$4,187,483).

9. MANAGEMENT AND SERVICE FEES

The Fund, together with Aston Hill O&G Trust, pays a management fee equal to 0.90% per annum of the Net Asset Value of the Fund, plus applicable taxes. The portion of the management fees paid by the Fund is equal to 0.65% per annum.

The Manager is responsible for paying the fees to AHAM, the Portfolio Manager of Aston Hill O&G Trust. The Fund also pays to the Manager a service fee equal to 0.40% per annum of the Net Asset Value of the Fund. The service fee is in turn paid by the Manager to the investment dealers in proportion to the number of units held by clients of each dealer at the end of each calendar quarter.

The Fund is responsible for all other operating expenses incurred in connection with its operation and administration, such as custodian, valuation, Trustee, reporting, audit and legal fees.

10. INVESTMENT TRANSACTIONS

Investment transactions related to settlements of the Forward Agreement for the years ended December 31, 2012 and 2011 were as follows:

	2012	2011
Proceeds from partial settlement of Forward Agreement	\$ 9,218,528	\$ 29,536,122
Less cost of investments sold:		
Prepayment of Forward Agreement during the year	8,585,358	26,215,329
Cost of Forward Agreement settled during the year	8,585,358	26,215,329
Net realized gain on partial settlement of Forward Agreement	\$ 633,170	\$ 3,320,793

For the year ended December 31, 2012 and 2011, there were no soft dollar amounts paid.

11. FINANCIAL RISK MANAGEMENT

The Fund’s investment activities expose it to a variety of financial risks. The Fund has a forward agreement which provide exposure to the return of the portfolio held by Aston Hill O&G Trust. The Statement of Investment Portfolio presents the securities held by Aston Hill O&G Trust as at December 31, 2012 and groups the securities by asset type. The following comparative summary represents the asset type held by Aston Hill O&G Trust as at December 31, 2011.

As at December 31, 2011:

Investment Sector	% of Portfolio
Oil and gas	
Equities	100%
Total	100%

The Fund invests in a Forward Agreement whose value is based on the performance of Aston Hill O&G Trust. The Manager attempts to minimize the potential adverse effects of this risk on the Fund’s performance by employing a professional, experienced portfolio manager, by diversifying the investment portfolio of the Trust within the constraints of the investment objectives and by using financial instruments to hedge certain risk exposures. To assist in managing risks, the Manager also maintains a governance structure that oversees the Fund’s investment activities and monitors compliance with the Fund’s stated investment strategy and restrictions, internal guidelines, and securities regulations.

NOTES TO THE FINANCIAL STATEMENTS (continued)

December 31, 2012 and 2011

Significant risks that are relevant to the Fund are discussed below.

a) Other Price Risk

Other price risk is the risk that the value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer, or all factors affecting all instruments traded in a market or market segment. All securities present a risk of loss of capital.

The Fund is exposed to other price risk through the Forward Agreement. The Portfolio Manager of Aston Hill O&G Trust has attempted to moderate this risk through the careful selection of securities and other financial instruments within the parameters of the investment strategy. The maximum risk of loss resulting from financial instruments is equivalent to their fair value.

As at December 31, 2012, had the prices on the respective stock exchanges for the securities of Aston Hill O&G Trust increased or decreased by 10%, with all other variables held constant, Net Assets would have increased or decreased by approximately \$3.6 million or 9.7% of Net Assets (2011 – \$5.0 million or 10.7% of Net Assets). In practice, the actual trading results may differ, and the differences could be material.

b) Interest Rate Risk

As at December 31, 2012 and 2011, the Fund and Aston Hill O&G Trust held no short-term deposit notes or other interest-bearing securities. The Fund and Aston Hill O&G Trust also have no interest-bearing liabilities. As a result of this, the Fund had minimal risk due to the changes in prevailing market interest rates.

c) Currency Risk

Currency risk is the risk that financial instruments that are denominated in a currency other than the Canadian dollar, which is the Fund's reporting currency, will fluctuate due to changes in exchange rates. The investment portfolio of Aston Hill O&G Trust, to which the Fund is exposed through the Forward Agreement, may be comprised of Canadian and US equities. As at December 31, 2012, Aston Hill O&G Trust had exposure to US dollar foreign exchange of US\$ nil (2011 – US\$2.8 million).

As at December 31, 2012				
Currency (000s)	Financial Instruments Exposure	Derivatives Exposure	Total Currency Exposure	% of Net Assets
US dollars	\$ —	\$ —	\$ —	—
Total	\$ —	\$ —	\$ —	—

As at December 31, 2011				
Currency (000s)	Financial Instruments Exposure	Derivatives Exposure	Total Currency Exposure	% of Net Assets
US dollars	\$ 2,797	\$ —	\$ 2,797	6.0%
Total	\$ 2,797	\$ —	\$ 2,797	6.0%

As at December 31, 2012, had the Canadian dollar strengthened or weakened by 10% in relation to all other foreign currencies held in the Fund, with all other variables held constant, Net Assets of the Fund would have decreased or increased respectively, by approximately nil (2011 – \$279,700). In practice, actual results may vary from this analysis and the difference may be material.

d) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. The Fund is exposed to credit risk through the Forward Agreement for the full amount of the Forward Agreement. The Net Asset Value of Aston Hill O&G Trust underlying the Forward Agreement, as presented on the Statement of Investment Portfolio, and other assets, represents the maximum credit risk exposure as at December 31, 2012.

Other assets will be settled in the short term.

e) Liquidity Risk

Liquidity risk is the risk the Fund will encounter difficulty in meeting obligations associated with financial liabilities.

The Fund is exposed to liquidity risk through its monthly and annual redemptions. For the annual redemption, the Fund receives notice by the last business day in July and has up to the tenth business day in September to settle the redemptions, which gives the Manager time to partially settle the Forward Agreement. The Fund's ability to partially settle the Forward Agreement provides the Fund with a source of liquidity.

All of the Fund's financial liabilities at December 31, 2012 and 2011 had maturities of less than one year.

12. FAIR VALUE DISCLOSURES

The Fund's assets and liabilities recorded at fair value have been categorized in accordance with CICA Handbook Section 3862, "Financial Instruments – Disclosure."

Section 3862 requires the Fund to classify its investments and derivative assets/liabilities into three categories based on the nature of the inputs used to determine their fair value. The categories and the nature of the inputs used in each category are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2: Inputs, other than quoted prices, that are observable for the asset or liability, either directly or indirectly, including inputs in markets that are not considered to be active.

Level 3: Inputs that are unobservable. There is little if any market activity. Inputs into the determination of fair value require significant management judgement or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Short-term notes included in cash and short-term investments are classified as level 2.

Assets at fair value as at December 31, 2012	Level 1	Level 2	Level 3	Total
Forward Agreement	\$ —	\$ 37,050,912	\$ —	\$ 37,050,912
Total	\$ —	\$ 37,050,912	\$ —	\$ 37,050,912

Assets at fair value as at December 31, 2011	Level 1	Level 2	Level 3	Total
Forward Agreement	\$ —	\$ 46,574,462	\$ —	\$ 46,574,462
Total	\$ —	\$ 46,574,462	\$ —	\$ 46,574,462

There were no transfers of financial assets between the levels during the year ended December 31, 2012 and 2011.

13. INCOME TAXES

The Fund had accumulated non-capital losses for tax purposes as at December 31, 2012 of \$11,921,023 (2011 – \$11,275,436). Losses will expire as follows:

	2012
2025	\$ 3,542,759
2027	3,382,714
2030	3,120,304
2031	1,229,659
2032	645,587
	\$ 11,921,023

The Fund had accumulated capital losses as at December 31, 2012 of \$17,616,335 (2011 – \$17,616,335). The capital losses can be carried forward for an indefinite period.

14. COMPARATIVE FIGURES

Certain prior year numbers have been reclassified to conform to current year presentation.

15. SUBSEQUENT EVENT NOTE

On March 21, 2013, the Federal Minister of Finance presented the majority government's budget. The budget will treat the return from the derivative investment portion of character conversion transactions, such as those employed by the Fund, as ordinary income rather than capital gains. The change applies to agreements entered into or amended after March 20, 2013. The Manager is currently assessing the impact of the change on the Fund.
